KSB Worldwide
Being Global Means Being Closer

With its many production and assembly sites in 16 countries and a tightly knit global sales and service network, KSB staff are always close at hand in more than 100 countries.
Applications

Know-how for a Variety of Applications

- Water transport
- Waste water treatment
- Energy conversion
- Process engineering
- Building services
- Solids transport
Waste Water Treatment

Focus on Water Pollution Control

KSB pumps help in the transport and cleaning of waste water. Sewage treatment processes use dry-installed and wet-installed pumps, as well as mixers and agitators.

Applications:
- Waste water transport
- Waste water treatment
- Rainwater harvesting
HQ

Bronisze - KSB Pompy i Armatura’s new headquarters

In September 2010 KSB Pompy i Armature sp. z o. o. changed its address.

Our company is currently based at Świerkowa 1D in Bronisze near Warsaw. The plot size is 6000m².

Office area - 800m² occupied by the management, administration, marketing departments and sales teams - one for each segment of the market: Water and Wastewater Treatment, Building Service, Energy, Industry and Service.

Warehouse and Service hall area - 800m² storing pumps and spare parts and housing our service force.
KSB Service Centre „Południe” is located in Przyszowice near Gliwice right next to „Sośnica” intersection connecting A1 and A4 motorways. The total usable area of the building is 950m² of which approx. 600m² is occupied by the service hall. Office premises are a total of 350m² and are based at the first floor.
