STATUTORY OBJECTIVES

IN THE AREA OF SCIENCE, EDUCATION AND ECOLOGY

- to **disseminate knowledge** of water management, especially the principles of managing water resources in catchment areas;
- to provide supplemental **professional education** in areas related to water and wastewater management;
- to take actions for rational use of water and other actions in the area of **ecological education**;

IN THE AREA OF EUROPEAN INTEGRATION AND DEVELOPMENT OF CONTACTS AND COOPERATION BETWEEN SOCIETIES

- to facilitate the **exchange of information** between research centres and to promote the results of their work;
- to facilitate the **exchange of information** and **contacts between the users of waters**, local authorities and government agencies;
- to **cooperate with other countries** to promote new technologies, harmonise standards and exchange experiences and information in water management.

Over 1000 participants per year

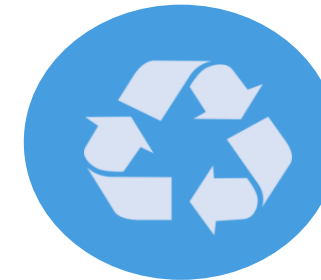

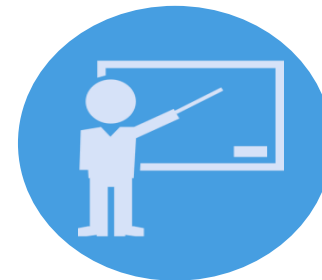

Over 50 trainings per year

- WATER SUPPLY COMPANIES
- WWTP
- MUNICIPAL ENTERPRISES
- ADMINISTRATION
- SANITARY INSPECTION
- DESIGN OFFICES
- SWIMMING POOLS
- TECHNICAL UNIVERSITIES
- OTHER SPECIALISTS

**WATER • WASTEWATER • SEWAGE
ENVIRONMENTAL PROTECTION
• WASTE • SWIMMING POOLS**

- SEMINARS
- TRAININGS
- WORKSHOPS
- MEETINGS
- STUDY VISITS
- WEBINARS
- KNOWLEDGE EXCHANGE
- INTERNATIONAL COOPERATION
- INTERLABORATORY TESTING SCHEMES
